

Homework week commencing 20<sup>th</sup> November 2023

Well done for all your work on subordinate clauses! You have demonstrated a good grasp of what a main clause is, opposed to a subordinate clause is, so great work!

This week, we're moving onto mental multiplication and division work, as that is currently the focus of our maths lessons. I want you to become confident and fluent with multiplication and division problems as it will benefit you so much in every area of maths and beyond!

All the best!

Any questions, please don't hesitate to contact me via email.

Kind regards,

Mrs Padam
