

Morning you lovely lot,

I hope you are all ok and enjoyed the snow on your way home from school last night.

I am setting you the following work for today, but please go get some fresh air too. Enjoy the snow, play in the garden or take a walk.

1. I sent home **long multiplication practice sheets** with you all at parent's evening, or gave them to you directly, so please complete what you can of those. If you are struggling with the large numbers, choose two-digit numbers instead. Any practice will really help.
2. I also sent home some **handwriting and spelling practice** sheets, please complete those.
3. I am extending the **TT Rock Stars challenge** until Monday so you can use today to accrue as many points as possible!
4. Please re-read **Chapter 1 of The Hobbit**. The link is here to read it for free:
<https://www.nytimes.com/2001/11/19/books/chapters/the-hobbit.html> We read half of this chapter in class but you can recap.
5. Optional: **Art/Geography**. I know how many of you love being creative, so I have uploaded a document explaining how to produce a piece of artwork linked to our work in Geography on Biomes. If you don't have all the resources, please don't panic, just adapt it.

Please don't panic if you find this work tricky, just do what you can.

Take care,

Miss Cheyney
