

EYFS Curriculum Information

Summer 1 - How Things Grow

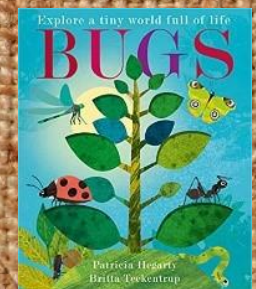

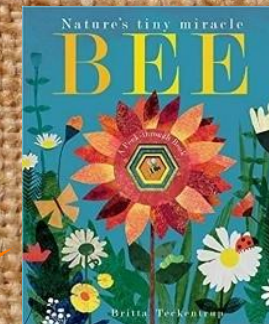

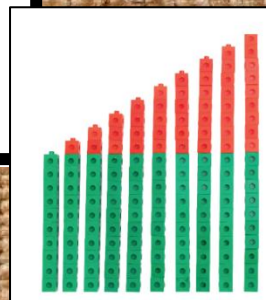

This half-term we will be continuing with learning about how things grow!

During this topic we will be learning about lifecycles of plants and minibeasts, looking at parts of a plant and growing plants!

We will continue to have focus stories each week and will be helping the children to develop re-telling by remembering the beginning, middle and end to a story. Children will be encouraged to use and understand new vocabulary during discussions and in their work.

In our Maths sessions we will be learning about the numbers past 10 up to 20 by building numbers, continuing number patterns and doing lots of verbal counting.

Personal, Social and Emotional Development

Healthy diets

How we look after our bodies

Resilience, perseverance and challenge

Growing and changing

Physical Development

Ball skills

Drawing and painting flowers and plants

Leaf rubbings

Writing

Writing instructions

Creating a fact book about plants

Writing simple phrases and sentences

Read sentences back

Communication and Language

Ask questions to understand what is happening

Join in with stories and rhyme

Respond to questions in full sentences

Use new vocabulary in conversations

Understanding The World

Farming in our local area

Identify fruit and vegetables grown locally

Identify where fruit and vegetables we eat come from

Grow plants and identify parts of a plant

Why are bees important?

Lifecycles of minibeasts

Expressive Arts and Design

Still life and collage

Spirals and snails

Instrumental activities
